

MWLA DATA ONE SHEET

"I would encourage any parent to allow their child to fully participate in their local Men's and Women's Leadership Academy Program. As a sovereign mother, I have found the village it takes to raise a child. Words don't express my appreciation, adoration and enthusiasm for such an amazing program. Men's and Women's Leadership Academy is not a club or a group, it's a life style. Best answered prayer that I can receive as a mom with faith and hope greater than myself." Ms. Diggs - Parent of a Men's Leadership Academy Student

"Men's Leadership Academy put me back on track to actually prioritize college and finish high school in good standing!" - *Matheu Robertson/ Sac High Graduate/Morehouse College*

"When I first came to Pacific as AP/SIC many of our young men in the third grade were in my office almost daily for fighting, bullying, initiating conflict ... the list goes on. To see them this year, after joining MLA was amazing. I am so excited for what they will do next year as sixth graders and I attribute much of their growth to Men's Leadership Academy!" - *Principal Lampkins - Pacific Elementary*
